OUR STORY

Established in 1976, the Fish Factory has been operating for over 40 years. The original fish market was acquired by Andrew Solomon and Chris Sava in 2008.

We pride ourselves on sourcing and stocking a wide range of Australian seafood for our customers whilst supporting the local seafood industry.

All our fish is sustainably caught and we source the majority of our seafood from the pristine waters of Australia and New Zealand.

Open seven days a week, our popular café serves a wide range of mouth-watering meals. We offer customers both dine-in and takeaway options.
